Sunday 12 [illegible]
[illegible] a [illegible]
[illegible] [illegible]
[illegible] [illegible]
[illegible]

Egrets White fronted
Herons Heron a single
Speckled Heron with
crested Tagus Common
2 more nests of Wood
Ibis or Spoon Bill 2 old
nests probably spoon
bill saw a Jaguar
Indian on the 2nd Lagoon
The Lagoons are surrounded
by Cabbage Palm Trees
Saw returning Egrets
Cranes open plain country
Flocked a Burning yet a
Wet Season but green
and fresh Lots of Egrets
Nests Camp on Thursday
Oct 4th Creek

Drew back Timber
up creek the entrance
Saw Indian Ball Ground

examined an old camping ground of the blacks near these lagoons found a few peculiar pieces of flints but nothing else of note
~~Went to the other~~

Monday 11 M Went on
the creek to see if could
find the Redheaded woo
pecker birds about the same
place where I had seen them
before what luck I had
expected to be a good
deal more of them as I
returned to the camp with
ried them

Redheaded Male Adult
normal eyes brown bill
brown tip pale yellow
which key runs to
brown throughout small
small under tail coverts

Young Male or Female
other one

Went down the creek to
where I had found the
Beavers nest last winter
I studied the bird I saw
had it was a light
brown hawk. They were
shot up in the nest
on a rock. Them I saw
up from it. Explored
a little further on came
back to camp had
some dinner after dinner
I took the rifle and went
down to the river to
see if I could get a
shot at ducks for
skinning but did not
have any luck I shot
one big one about 8 ft
long but he slid off
the rocks into deep
water. I could not
get him. On the

way down to the river
I saw a couple of ducks
killed some birds
coming back to camp
along the creek I saw
a large flock of Sand
grouse finally I found
some I could approach
it was terrible to see
wounded comrades
lead. Received some presents
from

Found some peaches from
Pathmos Thursday
Bought some celery
with me

Tuesday 12th Rode down
the mountain among 6
miles from camp &
then walked around the
rim for another mile
shot at a spotted bear
but did not bring it
down recovered it
Tasted much one ready
for eggs & ham with
egg Started a bird from
one nest but it flutter
the about & saw a couple
of old nests nothing more
Got back coming back
when I left my horse
I saw & killed a pair of
Lark sparrows Added to my
skin at Pretty close range
& they were Dove tailed

I walked about 2 of
my horse rested down
the river on the
road for some distance
but did not see
anything. I found some
fine pieces of petrified
wood that we were
I brought a basket
full along with me
Some one piece 2 ft long
by 18 inches in diameter
I left back in camp when
the team

Lusterpod. Male. Body
normal upper light brown
bell brown mark
upper dark slate colour
rest small white.

Female upper small same
as the male

Wednesday 13th Went down the river & examined the Buzzards nest there was no eggs but the nest appeared to be finished soon the birds circling over head. Went to the other Hawks nest found on the 5th & flushed the bird it flew to a tree in which its mate was sitting & I saw that it was a W Eagle the nest still cont only one egg we left it Went down to the crossing & came up the other side of the river found a Ravens nest with fullfledged young in it & a couple of W Eagles nests one old one & one just ready for eggs Could not find

for awhile & returned to camp later on in the afternoon I went down the creek to see if I could get any Swainson finches but did not see any of the birds

Saturday 30th Did
not feel well enough
to go out.

Sunday 31st Packed up a
parcel to Carrie Mirabilis
Nyctaginia and dried
6 miles also. Rec. back
August
Monday, 1st Did a little
at a collection of finches
in evg. Sketch among
Chestnut, carved Cochin
crimson Nuts. Fascia
Chestnut Cross Red Nyctaginia
Mirabilis, varnata
Red yard finch all caught
in one Nest

Had a visit at a pair of parrots at Mr Webers. They were taken 120 miles from Burke town near Wonder on a station of Mr Webers he said that he only saw one pair of birds about there & they nested in a dry gum tree in the garden & that they were nesting here again at the present time. I think that they are pretty parrakeets.

Tuesday 2nd

Wednesday 3rd

Thursday 4th

Friday 5th

Saturday 6th Went out to take
7 miles - [illegible]

Tuesday 9th

Wednesday 10th [illegible]

Thursday 11th

Tuesday 13th

Wednesday 13th

Sunday 14th

c. Monday 15th c. Arrive Thursday
in Ireland

Thursday 16th

Wednesday 17th

Monday 22nd

camp i with one young

one nuted in Campreus
Malurus amabilis nuted
in patches, grass near
Pyra

Thursday 15th Return
to Canberra

Friday 16th Went out to Echabie 12 miles distant struck mound & valley opened out along the track nothing else to note. Make a start for home at again about 5-30 pm & arrive there about 10 pm

Saturday 17th

Sunday 18th Went down to Manyenes below the shoals, found a nest of Parrots with 1 young one, saw a big Indian near beach sitting inland appeared to be over 20 ft long he was waiting for someone this was opposite

Monday 19th Thunder down this morning with heavy rain & wind. Canoe leak did not get any water but dirty

Tuesday 20th Went to
town & took at nest of
Egg one persuaded the
birds had deserted it
did not see them, found
Ruf. G. birds nest cont
2 fresh eggs. Nest Lined
with leaves both green & dry
& placed in a fork of a
thin sapling about 10ft
from the ground. Saw
another female Ruf. bird
& watched her for some
time but did not find
any nest. Found a
colony of Baltimore
building some of the
nests nearly finished
A pair of Sig birds in
the same tree appears
to be looking for a nest
in my blind.

11
Wednesday 21st Went
out to Eddy point with
Bert for some oysters
Found the skeleton of
a large snake & an Otter
eater, the snake had
evidently tried to make
a meal of the otter eater
& in the struggle to kill it death, the
last named showed too
many points
